Music Insertion :

Digital DVD Creations is able to accept original music CD's, MP3s, MP4s, supplied in digital format on CD. These files can also be attached in an email. Please include the appropriate amount of music with your slideshow or we may need to repeat songs to cover the length of your slideshow. Minor fitting adjustments can be made to synchronize the length of the audio to the length of the video. You really just need to get close within one or two minutes of the total length of your show. Pictures are typically on the screen about 6 seconds. Therefore for a 30 picture sequence you would need around 180 seconds of music (3 minutes or about one song). If you have a song in mind but you do not own it, Digital DVD Creations can purchase the song on your behalf. Please indicate below the order of musical selections you want to include in your show.

Video Clip Insertion:

Video clips can be incorporated into your slideshow in all popular digital formats (mpeg, mts, dv, avi and ect.). Digital DVD Creations can also extract them from your old VHS, and VHS-C video tapes for an extra fee. Please use the form below to supply us some information about your video clips. Ideally video clips should be about three minutes long or less. If you would like a longer clip inserted please try to keep them under 5 minutes in length (video files are typically large in size).

Mailing / Ordering Instructions:

1. Assemble your combination of photos, digital images, video clips, and music. Digital photos should be named in numerical order corresponding to the order you wish them to appear. Photos or slides that need to be scanned should have a post it note on the back with a number denoting it's position in the show. When numbering a combination of digital files and photographs remember to leave an empty number space in the digital sequence for each of your photographs we will need to scan. We really prefer to only have digital files sent to us. If a CD or DVD is lost in the mail, it can be replaced. If a one of a kind photograph is lost in the mail it is gone forever. On that note, if you need to send photo prints or VHS tapes please insure your package. Also make sure the production materials you are shipping us are packed securely to ensure their safety during shipping.
2. Digital DVD Creations can accept CDs, DVDs, Flash drives, Compact Flash cards type I and II, Smart Media cards, Secure Digital SD cards, Mini SD cards, almost any kind of storage device you could have. You can also just email me your photos. Yahoo supports up to 25 Mb of transfer per email (about 15-25 averaged sized picture files). Check your email service for their capabilities.
3. Complete this Order Form and either print order form or attach to an email . If you have any questions about the completion of this order form please call (636)-542-1878 or email us at digitaldvdcreations@yahoo.com.
4. Package your materials, your completed Order Form (if not emailed) and payment in full (if paying with check or money order). If paying by credit or debit card your payment will be processed through the secure PayPal system after we receive your materials. Mail your package to:

Digital DVD Creations
15054 Montesino Drive
Orlando, Florida 32828-6279
5. Digital DVD Creations will notify you by either email or telephone as soon as we receive your materials.
6. Digital DVD Creations will email or call when your project is ready for review on the web. Once you view your slideshow and approve it, we will produce your finalized production to either a DVD, or a Blu-ray disc. Your completed slideshow and all your originally submitted materials will be returned to you. Digital DVD Creations looks forward to making your exciting DVD slideshow production!
